

GOOD OLD WHISKY.

Manufacturers of the Approved American Beverage in Meeting.
LOUISVILLE, June 13.—At a meeting of the wholesale liquor dealers of today, the following resolution was adopted: "That this meeting endorses the action of the distillers at the craft house June 8 in not making any whisky from 1887 to July 1, 1888, and we demand to the trade not to buy whisky made between these dates; further, we wholesale dealers of Louisville, agree not to purchase any whisky distilled between the above dates from distillers who decline to take the action of the majority of distillers of the state, and we demand concurrence of action by distillers in other cities."

The Red People.

WACO, Ark., June 13.—The horses supposed to be in the east of Santa Catalina mountains as signal smoke has been distinctly seen. Troops of cavalry are operating in that locality. The chief of the Apaches says there will be Indian war. Nearly all the Indians have joined the hostiles. The mountains have been fired. Indians say this was done to distract troops from using the Hellgate flash. The crest of the Catalina's last night was ablaze fifteen miles.

Who Needs an Accident Policy?

He who is never exposed to an accident of any kind does not need a policy, but the mechanic, handling

machinery, the mason and builder,

working on high scaffolds; the timer and rafter, climbing high roofs and

lumberman, the factory

worker, working among moving

machines, the commercial or trav-

eling agent, constantly journeying on

coaches and steamers; railroad

conductors and employees generally,

traveling for business or pleasure;

these need an accident policy. And

only these, and persons of more

arduous occupation, but merchants,

manufacturers, lawyers, physicians,

engineers, bankers, brokers, insur-

ance officers, and agents, clerks, stu-

dents, editors, authors, musicians,

etc., all men of whatsoever trade

profession, or of none at all, except

those who are never exposed to

danger, need a general accident pol-

icy, and of these, we may say there

none.

Plan of Organization.

Rooms of the State Executive Com-

mittee of Anti-Prohibitionists. Waco

10, 1887.—The following plan of

organization is adopted for the com-

munity.

The basis of the organization

must necessarily be in the precincts.

To this end, the chairmen of the

county committees must give their

immediate and careful attention, se-

lecting for each product an active,

zealous friend of the cause as chair-

man and organizer, who will go to

work at once. Precinct clubs, when

practicable, should be organized, as

this method furnishes an easy mode

of communication with the voters,

and will facilitate the distribution of

our literature.

Chairmen of county committees

will furnish the chairman of the state

committee with the names and post-

office address of the precinct chair-

men in their respective counties, as

rapidly as the organization proceeds.

County chairmen will proceed

and arrange for a thorough canvass

of their respective counties by local

speakers; and it is suggested that

such canvass be so arranged as to

take place in June and July.

The expenses of the local canvass

in the counties will be borne by the

local committees in the counties;

and it is suggested that funds for that

purpose be raised and entrusted to

the local authorities for disbursement.

In exceptional cases, the state com-

mittee will make special contributions

for local expenses, if it is furnished

with funds, but our friends in the

several centers will be asked as sup-

porters.
